

AI Champions Group

Where operators turn AI ideas into repeatable, measurable wins—stress-testing, sharing, and scaling what works through peer-driven collaboration.

AI Bootcamp

Build capability

AI Champions Group

Sustain momentum, test ideas

Ongoing Enablement

Amplifies AI across the business

Why The Champions' Group Exists

Your team uses AI for tasks. But you lack the operating system to scale adoption, measure impact, and ship automations that stick. AI remains a series of one-offs instead of compounding capability.

The Kiingo AI Champions Group is designed to equip your AI Champion to stay on the frontier of AI capabilities, understand what's truly possible, then translate that knowledge into real adoption and integration across your business. In a monthly, facilitator-led cohort, your Champion learns where AI is heading, sees concrete use cases, and works through live challenges with peers so they can design and implement workflows that make significant positive impact.

Who This Group is For:

- **Primary seat:** Your AI Champion
- **Optional seat:** Executive sponsor or functional partner to align priorities + clear blockers
- **Cohort size:** 8-12 for real airtime + momentum
- **Prereq:** AI Bootcamp recommended

What It Is:

- **Monthly 4-hour applied-AI forum**
- Chatham House Rules
- Expert facilitation, guidance on AI landscape
- Ongoing meetings, not one-off training
- Peer community across companies, accountability check-ins
- Continuing education on new techniques, AI resource access

What Happens Each Month (4 Hours)

- Kick-off Question / Exercises
- Demos, what's new in AI, training
- Check-Ins: How can the group help you today?
- Roundtable – Opportunity / Problem Solving
- Exercises & Conclusion

What Members Get

- **Resource Vault:** fresh role prompts, context-prompt templates, automation blueprints, QA checklists, enablement comms
- **Demo & Template Pack**
- **Scorecard Framework:** measuring adoption, productivity, trust
- **Community Channels**
- **Office Hours:** small-group time with Kiingo

AI Champions Group

Where operators turn AI ideas into repeatable, measurable wins—stress-testing, sharing, and scaling what works through peer-driven collaboration.

Key Benefits

- Sustained adoption (prevents momentum loss)
- Access to new AI capabilities as they emerge
- Risk mitigation through shared intelligence
- Cross-company learning & collaboration, hands-on education
- Support & accountability

56%

Faster task completion with AI

5-10x

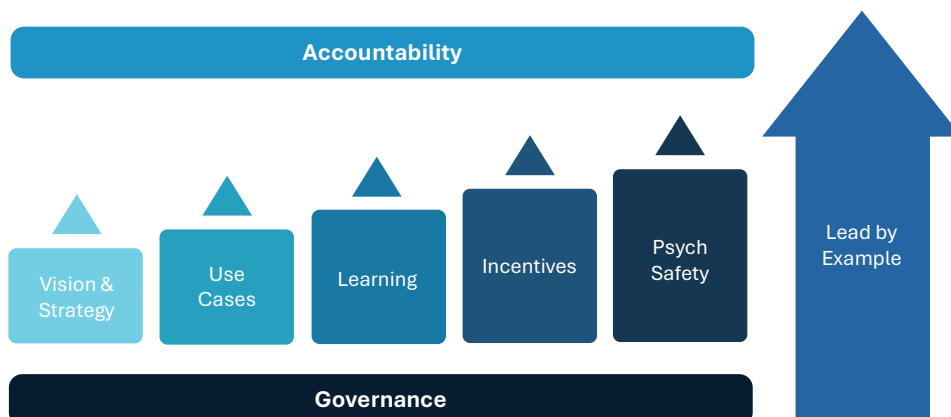

Expert vs beginner AI productivity gap

5-15 hours

Average time Kiingo participants save with AI

Quick FAQs

- **Is this training?** Includes training, but primarily **operating cadence**: news → demos → patterns → small shipments → measurement.
- **Need technical staff?** No. We start with **human-in-the-loop workflows**; technical help via office hours.
- **Data security?** Simple **Green/Yellow/Red** rules, logs, approvals; recommend enterprise-grade tools where appropriate.
- **Early in AI?** Perfect - built to create everyday proficiency and a habit of shipping small wins.
- **ROI timeline?** Most ship a first measurement win in **30-45 days**; more partial automations the following quarter.
- **Platform pitch?** No. We are platform-agnostic and favor existing tools you already pay for.
- **Private cohort?** Yes - popular for cross-functional leaders; public cohorts add outside perspective.

Kiingo AI Adoption Model

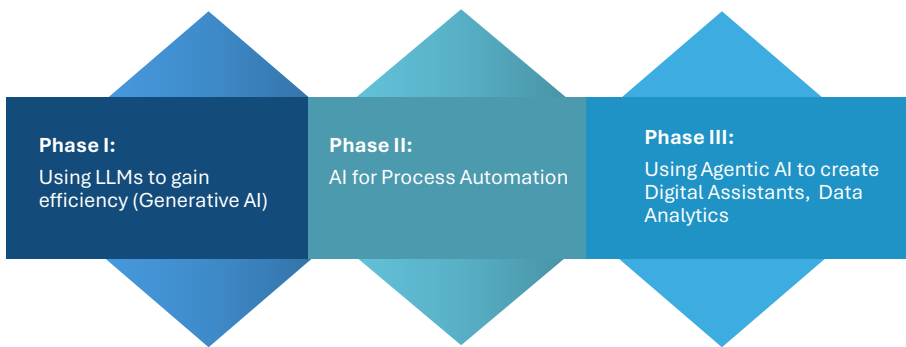

How businesses turn AI intent into real, sustained usage.

AI Champions Group

Kiingo AI Adoption Process Flow

A three-phase roadmap for business adoption.

From a Vistage Chair

I have clients interested in improved application of AI and can now recommend Kiingo from experience.

I was already addicted to the benefits of using AI as an advisor and research assistant, **but I feel several times more effective and now understand how to use it in the context of teams** and larger project planning and automation.

-- Todd Girvin, Vistage Chair

Expected Results in 90 days

- **Measured adoption:** >50% weekly active usage in a pilot group; repeatable wins
- **Visible ROI:** hours saved per week, cycle-time reductions, improved first-pass quality, lower cost per task
- **Shipped partial automations:** 2-3 human-in-the-loop flows live in logs/approval; SOPs + reusable prompts
- **Safer usage:** Green/Yellow/Red data rules socialized; assistants/agents run behind guardrails with traceability
