

AI Digital Workforce

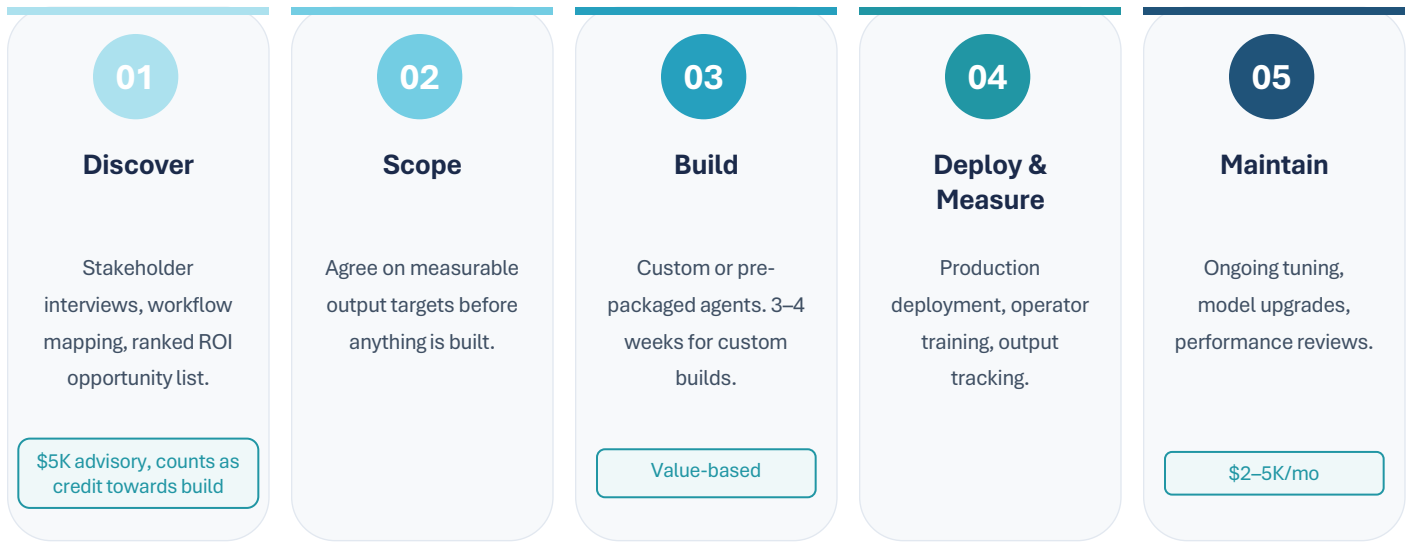

Custom & Pre-Packaged AI Agents Built for Your Business

Your team spends hours on repetitive work that AI agents could handle in minutes — meeting recaps, invoice processing, CRM updates, report generation. We find your highest-ROI automation opportunities, build or deploy agents for your workflows, and guarantee results.

✓ You either make money or don't lose money.

How It Works

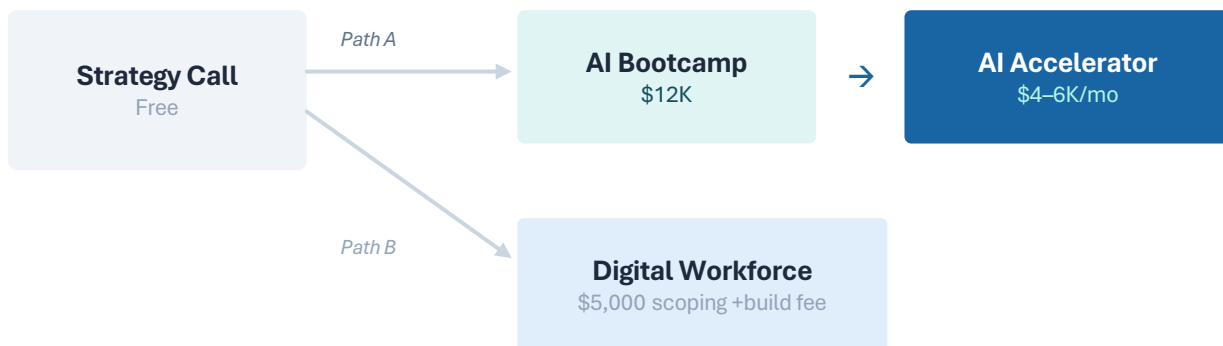

Five steps. Low risk. High clarity.

Discovery fee credits toward any build. Outcome-based pricing: if agents don't hit agreed targets, you don't pay the build fee.

Your AI Journey

Start with a discovery call, then build capability through training or ongoing strategic support.

What Your AI Agents Could Do

Purpose-built agents that handle real, recurring work — not generic chatbots.

Meeting Notes & Recaps

Summarize every meeting, extract action items, distribute to the right people.

Invoicing & Financial Ops

Process invoices, reconcile accounts, generate financial reports — hours to minutes.

CRM Audit & Execution

Keep your CRM clean. Update records, flag stale deals, generate pipeline reports.

SDR & Lead Qualification

Research inbound leads, score and prioritize them, draft personalized outreach.

Plus: email response, document processing, data extraction, report generation, scheduling, and custom integrations.

TWO WAYS TO DEPLOY

Pre-Packaged Agents

Email response, SDR, meeting intelligence, document processing. Configure to your context, train on your data.

Deploy in days to weeks.

Custom-Built Agents

Built from scratch for your specific workflows. Full discovery, scoping, and development. Kiingo only builds what we're confident will deliver.

3–4 week build cycle.

✓ **Both come with the same guarantee: agreed targets before we build. Don't hit them? Don't pay.**

YOUR INVESTMENT

Offering	Investment	Details
Workflow Discovery	\$5,000	~10-hour advisory engagement. Full credit toward build if you proceed.
Agent Build	Value-based	Anchored to current process cost. You pay only if agreed targets are met.
Ongoing Maintenance	\$2K–\$5K/mo	Performance reviews, retraining, model upgrades. Continues only while targets are met.

“There are a lot of BS AI groups, education programs, and promises out there that are just scams or money grabs without real ROI... Kiingo AI is truly a step ahead in this industry.” -- **Summer Hopson · Marketing Lead, Dumont Printing, Inc.**
